

Coatings & Secondary Containment

www.primeresins.com

Our Background

Pioneered the use of polyurethane resins for sealing cracks in concrete and helped build that market.

The first to package polyurethane grouts in an easy-to-use Quick-Mix cartridge system over **30 years ago.**

The Prime Resins Difference

Prime Resins is a leading manufacturer of chemical grouts, foams, adhesives and coatings for infrastructure repair & protection. We provide solutions for problems in leak sealing, soil stabilization, slab lifting, structural repair and coatings/secondary containment.

What sets us apart?

Technical expertise: We were the first in our field to offer 24/7 technical support.

Turnaround time: We have the fastest turnaround in the industry. Many shipments go out same business day as the order.

Training: We provide on-site training, application assistance, project consultations, and training seminars at our Head Quarters.

Great value: We offer the best combination of product performance, expertise, and experience.

Solutions focus: We work as partners with our clients to determine causes and to find remedies for your challenges. We are available before and after a purchase to answer questions and support our clients. This approach is in the DNA of the company.

Coatings/Secondary Containment

Prime Resins makes a full suite of products that provide superior protection.

Protecting concrete usually means shielding it from the elements of nature or from harsh manmade chemicals. But it's not just concrete that needs such protection. Corrugated metal pipe, steel surfaces, material hoppers, rail cars and masonry all can come in contact with corrosive or abrasive materials or harsh conditions.

We have products that:

- Waterproof and protect structures
- Provide primary and secondary containment of solvents and other harsh chemicals
- Protect floors/walls of concrete and most building materials and bond aggregate materials to concrete
- Prime concrete, wood and steel prior to applying epoxy, polyurethane or polyuria coatings
- Protect concrete, masonry, corrugated metal pipe, steel surfaces, wood, stone etc.
- Provide seamless surface protection of concrete and metal
- Protect surfaces that come in contact with food
- Protect Surfaces from resin and epoxy stains
